

notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321–4347 establishes a national policy for the environment. The Council on Environmental Quality (CEQ) oversees the NEPA implementation. CEQ's Regulations at 40 CFR parts 1500 through 1508 set the standard for NEPA compliance. They also require agencies to establish their own NEPA implementing procedures. The EPA's procedures for implementing NEPA are found in 40 CFR part 6. Through this part, the EPA adopted the CEQ Regulations and supplemented those regulations for actions proposed by the EPA that are subject to NEPA requirements. The EPA actions subject to NEPA include the award of wastewater treatment construction grants under Title II of the Clean Water Act, the EPA's issuance of new source National Pollutant Discharge Elimination System (NPDES) permits under section 402 of the Clean Water Act, certain research and development projects, development and issuance of regulations, the EPA actions involving renovations or new construction of EPA facilities, and certain grants awarded for projects authorized by Congress through the agency's annual appropriations act. The EPA is collecting information from certain applicants as part of the process of complying with either NEPA or Executive Order 12114 ("Environmental Effects Abroad of Major Federal Actions"). The EPA's NEPA regulations apply to actions of the EPA that are subject to NEPA in order to ensure that environmental information is available to the agency's decision-makers and the public before decisions are made and before actions are taken. When the EPA conducts an environmental assessment pursuant to its Executive Order 12114 procedures, the agency generally follows its NEPA procedures. Compliance with the procedures is the responsibility of the EPA's Responsible Officials, and for applicant proposed actions applicants may be required to provide environmental information to the EPA as part of the environmental review process. For this ICR, applicant-proposed projects subject to either NEPA or Executive Order 12114 (and that are not addressed in other EPA programs' ICRs) are addressed through the NEPA process.

Form Numbers: None.

Respondents/Affected Entities:

Entities potentially affected by this action are certain grant or permit applicants who must submit environmental information

documentation to the EPA for their projects to comply with NEPA or Executive Order 12114, including Wastewater Treatment Construction Grants Program facilities, State and Tribal Assistance Grant recipients, and new source National Pollutant Discharge Elimination System permittees.

Respondent's Obligation to Respond: Voluntary.

Estimated Number of Respondents: 26 (total).

Frequency of Response: On occasion.

Total Estimated Burden: 4,720 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total Estimated Cost: \$394,461 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 8,957 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to an adjustment change in the size of the respondent universe.

Dated: September 19, 2019.

Robert Tomiak,

Director, Office of Federal Activities.
