

90-day Federal Authorization Decision
Deadline—May 9, 2020

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the projects' progress.

Project Descriptions

Acadiana Project

KMLP proposes to install three new natural gas-fired compressor units (31,900 horsepower [hp] each) and re-wheel two existing compressor units at its existing Compressor Station 760 in Acadia Parish, make modifications to meter piping and new control valves at its existing Columbia Gulf Meter Station in Evangeline Parish, as well as install auxiliary facilities at both locations.

Louisiana Xpress Project

Columbia Gulf proposes to construct and operate three new greenfield compressor stations, and modify one existing compressor station. Each new compressor station (Shelburn Compressor Station in East Carroll Parish, Red Mountain Compressor Station in Catahoula Parish, and Chicot Compressor Station in Evangeline Parish) would include two 23,470 hp natural gas turbine driven compressors (totaling 46,940 hp), filter/separators, gas cooling bays, 48-inch-diameter suction and 42-inch-diameter discharge piping, and related appurtenant facilities.

Modifications to the existing Alexandria Compressor Station in Rapides Parish would include additional cooling bays with associated piping and appurtenant facilities.

Background

On August 28, 2019, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Acadiana Project and Request for Comments on Environmental Issues* (NOI). Also on August 28, 2019, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Louisiana Xpress Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Session*. The NOIs were sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers.

In response to the NOI for the Acadiana Project, the Commission received comments from the Louisiana Department of Wildlife and Fisheries and Cheniere Energy. The primary

issues raised by the commentors are potential impacts on the wild coco orchid. The comment from Cheniere Energy was a statement in support of the Acadiana Project. In response to the NOI for the Louisiana Xpress Project, the Commission received comments from SKL Farm Inc., and the Choctaw Nation of Oklahoma. The primary issues raised by the commentors are adverse effects of artificial light, noise, and increased activity from the proposed compressor stations. The Choctaw Nation of Oklahoma requested GIS shapefiles, and the cultural resource surveys for the Louisiana Xpress Project. All substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP19-484 or CP19-488), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.
