BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-R3-ES-2018-0037;
FXES11130300000-189-FF03E00000]

Final Environmental Impact Statement on MidAmerican Energy Company's Habitat Conservation Plan for Midwestern Bat and Bird Species in Iowa

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of availability; request
for comments.

SUMMARY: In accordance with the Endangered Species Act, as amended, and the National Environmental Policy Act, we, the U.S. Fish and Wildlife Service, announce the availability of the final environmental impact statement and draft record of decision analyzing the impacts of issuance of an incidental take permit (ITP) for implementation of the MidAmerican Energy Company's *Final Habitat Conservation Plan MidAmerican Energy Company Iowa Wind Energy Project Portfolio* (HCP). Our decision is to issue a 30-year ITP for implementation of the HCP, which authorizes incidental take of the federally endangered Indiana bat, federally threatened northern long-eared bat, federally protected bald eagle, the little brown bat, and tricolored bat under the Endangered Species Act.

DATES: We will finalize the record of decision and issue a permit no sooner

than 30 days after the publication of this notice of availability in the **Federal Register**.

ADDRESSES: Electronic copies of the documents this notice announces will be available online in Docket No. FWS-R3-ES-2018-0037 at <http://www.regulations.gov>.

Paper copies will be available at 22 county libraries in Iowa. Additional electronic copies of the documents as well as the list of libraries with paper copies will be available at <https://www.fws.gov/midwest/rockisland/te/MidAmericanHCP.html>.

FOR FURTHER INFORMATION CONTACT:

Amber Schorg, Fish and Wildlife Biologist, or Kraig McPeck, Illinois-Iowa Ecological Services Office Project Leader, Illinois-Iowa Field Office, by U.S. mail at 1511 47th Ave., Moline, IL 61265, or by phone at 309-757-5800.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of several documents related to an incidental take permit application under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The final environmental impact statement (EIS) and draft record of decision (ROD) were developed in compliance with the agency decision-making requirements of the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*), and are based on the habitat conservation plan as submitted by MidAmerican Energy Company (applicant). We described, fully evaluated, and analyzed all seven alternatives in detail in our 2019 final EIS. The draft ROD documents the rationale for our decision. The final ROD will be available on the Service website no sooner than 31 days after this notice. In addition to this notice,

the Environmental Protection Agency (EPA) is publishing a notice announcing the EIS, as required under the Clean Air Act, section 309 (42 U.S.C. 7609; see *EPA's Role in the EIS Process* below).

Proposed Action

Our proposed action is to issue an ITP to the applicant under section 10(a)(1)(B) of the ESA, (16 U.S.C. 1539(a)(1)(B)), that authorizes incidental take of the federally endangered Indiana bat, federally threatened northern long-eared bat, and federally protected bald eagle, as well as the little brown bat and tricolored bat, from the applicant's maintenance and operation of its wind power generation facilities in Iowa. Little brown bat and tricolored bat are not federally protected, but they are currently being evaluated for protection. Additionally, 50 CFR 22.11 provides for the permitting of eagles under ESA permits. The applicant has chosen to include these as covered species and treated them as if they were ESA listed.

MidAmerican Energy Company is one of the largest electric utilities in Iowa, and operates over 22 projects with more than 4,040 MW of installed energy generation capacity. MidAmerican Energy Company's ability to serve its customers depends on the predictable operation and maintenance of its wind power facilities. The plan area for the HCP includes areas where authorized incidental take would occur and conservation measures would take place, covering all of Iowa. The applicant requested a term of 30 years from the date of ITP issuance to include the operational life of the covered projects. The applicant will implement minimization and mitigation measures to offset impacts to the covered species according to the HCP.
