

This requirement is implemented in the Federal Acquisition Regulation (FAR) through the provision at FAR 52.204–24, Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment and the clause at FAR 52.204–25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

This clearance covers the following requirements:

- FAR 52.204–24 requires an offer or to represent whether they will provide any covered telecommunications equipment or services and if so, describe in more detail the use of the covered telecommunications equipment or services; and
- FAR 52.204–25 requires contractors to report covered telecommunications equipment, systems and services identified during performance of a contract.

DoD, GSA, and NASA request approval of this information collection in order to implement the law. The information will be used by agency personnel to identify and remove prohibited equipment, systems, or services from Government use. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor.

A notice was published in the **Federal Register** at 84 FR 40216, on August 13, 2019, as a part of an interim rule under FAR Case 2018–017, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

A. Annual Reporting Burden

52.204–25:

Total number of respondents:

190,446.

Average responses per respondent:

41.25.

Total Responses: 7,855,881.

Average burden hours per response:

.105.

Total burden hours: 821,274.

The public reporting burden for this collection of information consists of completing the representation, which is estimated will take an average of 5 minutes (.08333 hours) per response if additional detail is not necessary. If additional detail is necessary, completing the representation is estimated will take an average of three hours per response. The average total burden hours per total responses is estimated to average .105 burden hours per response, including time to complete the representation and provide the additional detail.

B. Annual Reporting Burden

52.204–25:

Number of Respondents: 4,761.

Responses per Respondent: 5.

Total Responses: 23,805.

Average Burden Hours Per Response: 1.5.

Total Burden Hours: 35,708.

The public reporting burden for this collection of information consists of reports of identified covered telecommunications equipment, systems and services during contract performance as required by 52.204–25. Reports are estimated to average 1.5 hour per response, including the time for reviewing definitions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the report.

C. Public Comments

DoD, GSA, and NASA invite comments on: Whether the proposed collection of information is necessary for the proper performance of the functions of Federal Government acquisitions, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW, Washington, DC 20405, telephone 202–501–4755. Please cite OMB Control No. 9000–0199, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment, in all correspondence.

Dated: October 3, 2019.

Janet Fry,

*Director, Federal Acquisition Policy Division,
Office of Governmentwide Acquisition Policy,
Office of Acquisition Policy, Office of
Governmentwide Policy.*

BILLING CODE 6820–EP–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60-Day–20–0215; Docket No. CDC–2019–0085]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Application Form and Related Forms for the Operation of the National Death Index. The National Death Index (NDI) is designed to allow NCHS to collect mortality data, to support epidemiological research and to furnish mortality information.

DATES: CDC must receive written comments on or before December 9, 2019.

ADDRESSES: You may submit comments, identified by Docket No. CDC–2019–0085 by any of the following methods:

- *Federal eRulemaking Portal:* [Regulations.gov](https://www.regulations.gov). Follow the instructions for submitting comments.

- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS–D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to [Regulations.gov](https://www.regulations.gov).

Please note: Submit all comments through the Federal eRulemaking portal ([regulations.gov](https://www.regulations.gov)) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS–D74, Atlanta, Georgia 30329; phone: 404–639–7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who

are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

5. Assess information collection costs.

Proposed Project

Application Form and Related Forms for the Operation of the National Death Index (NDI) (OMB Control No. 0920–0215, Exp. 12/31/2019)—Revision—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 306 of the Public Health Service (PHS) Act (42 U.S.C.), as amended, authorizes that the Secretary of Health and Human Services (DHHS), acting through NCHS, shall collect statistics on the extent and nature of illness and disability of the population of the United States.

The National Death Index (NDI) is a national database containing identifying death record information submitted annually to NCHS by all the state vital statistics offices, beginning with deaths in 1979. Searches against the NDI file provide the states and dates of death, and the death certificate numbers of deceased study subjects.

Using the NDI Plus service, researchers have the option of also

receiving cause of death information for deceased subjects, thus reducing the need to request copies of death certificates from the states. The NDI Plus option currently provides the International Classification of Disease (ICD) codes for the underlying and multiple causes of death for the years 1979–2018. Health researchers must complete administrative forms in order to apply for NDI services, and submit records of study subjects for computer matching against the NDI file. A three-year revision request is submitted to continue the use of the three administrative forms (the application form, repeat request form, and transmittal form) utilized in the operation of the National Death Index (NDI) program. These forms are submitted by NDI users when applying for use of the NDI and when actually using the service. In addition, this request includes the introduction of electronic versions that will ultimately replace the three paper documents, one of which will include a minor reduction in the number of data collection items. There is no cost to respondents except for their time. The total estimated annual burden hours are 417. While the estimated annual number of application forms has increased from 100 to 120, the revised estimate of the time required to complete the application form results in an overall net decrease by 40 burden hours from the previously approved 457 hours.

ESTIMATES OF ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Researcher	Application Form—Paper	20	1	3	60
Researcher	Application Form—Electronic	100	1	3	300
Researcher	Repeat Request Form—Paper/Electronic	70	1	18/60	21
Researcher	Transmittal Form—Paper/Electronic	120	1	18/60	36
Total	417

[60-Day–20–0822; Docket No. CDC–2019–0082]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing efforts to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection titled The National Intimate Partner and Sexual Violence Survey
