ENVIRONMENTAL PROTECTION AGENCY

[Regional Docket No. II-2019-4; FRL-10001-06-Region 2]

Clean Air Act Operating Permit Program; Petition on State Operating Permit for Newark Bay Cogeneration Partnership LP

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Final Order on Petition on Clean Air Act Title V Operating Permit.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an Order dated August 16, 2019, responding to a petition related to a Clean Air Act (CAA) title V operating permit issued by the New Jersey Department of Environmental Protection (NJDEP) to Newark Bay Cogeneration Partnership LP for the Newark Bay Cogeneration facility located in Essex County, New Jersey, Operating Permit No. BOP160001, PI No. 07617.

ADDRESSES: The EPA requests that you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, the Petition, and other supporting information. You may review copies of the final Order, the Petition, and other supporting information at the EPA Region 2 Office, 290 Broadway, 25th Floor, New York, New York 10007-1866. You may view the hard copies Monday through Friday, from 9:00 a.m. to 3:00 p.m., excluding federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order and Petition are available

electronically at: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

FOR FURTHER INFORMATION CONTACT: Suilin Chan, EPA Region 2, 212-637-4019, Chan.Suilin@epa.gov.

SUPPLEMENTARY INFORMATION: Section 505(b)(1) of the CAA affords the EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities under title V of the CAA. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of the EPA's 45-day review period if the EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or unless the grounds for the issues arose after this period.

The EPA received a petition from the Ironbound Community Corporation dated March 18, 2019 relating to the Permit. The petition was submitted under CAA § 505(b)(2) asking EPA to object to the Permit.

On August 16, 2019, the EPA Administrator issued an Order denying the Petition. The Order explains the basis for the EPA's decision.

Sections 307(b) and 505(b)(2) of the CAA provide that a petitioner may request judicial review of those portions of an order that deny issues in a title V petition. Any petition for review shall be filed in the United States Court of Appeals for the appropriate circuit no later than December 10, 2019.

Dated: September 23, 2019.

Peter Lopez,
Regional Administrator, Region 2.

BILLING CODE 6690-01-P

FEDERAL COMMUNICATIONS COMMISSION

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Notice of a New System of Records.

SUMMARY: The Federal Communications Commission (FCC or Commission or Agency) proposes to add a new system of records, FCC/WCB-2, Toll Free Number Auction System, to its inventory of records systems subject to the Privacy Act of 1974, as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the Agency. As its initial undertaking, the system will collect and process the bidder information necessary to administer the auction of approximately 17,000 numbers in the 833 toll free code ("833 Auction"). The FCC has established Somos, Inc., the Toll Free Numbering Administrator ("Somos"), as the auctioneer of the 833 Auction.

DATES: This system of records will become effective on October 11, 2019. Written comments on the system's routine uses are due by November 12, 2019. The routine uses will become effective on November 12, 2019, unless written comments are received that require a contrary determination.

ADDRESSES: Send comments to Leslie F. Smith, Privacy Manager, Information Technology (IT), Room 1-C216, Federal Communications Commission, 445 12th Street SW, Washington, DC 20554, or to Leslie.Smith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Leslie F. Smith, (202) 418-0217, or Leslie.Smith@fcc.gov (and to obtain a copy of the Narrative Statement that includes details of this proposed new system of records).

SUPPLEMENTARY INFORMATION: In an order it released on September 27, 2018, the Commission established a framework for the auctioning of certain numbers in the recently-opened 833 toll free code and appointed Somos as the auctioneer of these numbers. Toll Free Assignment Modernization, Toll Free Access Codes, WC Docket No. 17-192, CC Docket No. 95-155, Report and Order, 33 FCC Rcd 9274 (2018). This auction is an experiment in the use of competitive bidding to assign toll free numbers, and is the first time the FCC will allocate toll free telephone numbers via an auction process. In order to make sure that the 833 Auction is conducted in a fair and transparent manner, parties interested in participating in the auction (which may include "individuals" as that term is defined in the Privacy Act) will be required to disclose certain information and make certain certifications during an application process. This information will be used to determine the parties' eligibility to participate in the auction and to administer the 833 Auction, including the awarding of numbers to winning bidders. In addition, this system will also include information about parties that subsequently purchase auctioned numbers in the secondary market. This system of records includes both the 833 Auction and possible future auctions of telephone numbers that may be conducted in a similar manner.

SYSTEM NAME AND NUMBER:

FCC/WCB-2, Toll Free Number Auction System.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION(S):

Federal Communications Commission (FCC), 445 12th Street SW, Washington, DC 20554; for the 833 Auction described

in the "Supplementary Information" section above, the system will be located at Somos Corporation, 2411 Dulles Corner Park, Suite 250, Herndon, VA 20171.

SYSTEM MANAGER(S):

Wireline Communication Bureau (WCB), Federal Communications Commission (FCC), 445 12th Street SW, Washington, DC 20554;

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 251(e) of the Communications Act of 1934, as amended, gives the FCC authority to create or designate impartial entities to administer telecommunications numbering and to make such numbers available on an equitable basis. 47 U.S.C. 251(e). Pursuant to this authority, the Commission has issued rules on the administration of toll free numbering. 47 CFR 52.101-111. These rules allow the Commission to assign toll free numbers using a variety of methods, including competitive bidding. 47 CFR 52.111.

PURPOSE(S) OF THE SYSTEM:

The purpose of this system is to assign toll free numbers in a market-based and equitable manner. It flows from and is consistent with the FCC's statutory responsibility to administer telecommunications numbering. In order to carry out this purpose, the FCC-designated auctioneer will collect information from parties that are interested in bidding for toll free numbers, will take steps to verify the parties' identities, and will determine whether the parties are eligible to participate in auctions such as the 833 Auction. Interested parties will also be required to certify that they will follow the rules that the FCC has established to ensure a fair and transparent auction process. The auctioneer will then use the information to conduct the auction and collect payments from winning bidders. In addition, this system will also include information about parties that subsequently purchase auctioned numbers in the secondary market.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The categories of individuals in this system include, but are not limited to, individuals who have registered for an auction identification number, filled out an auction application form, and actually participated in toll free number auctions such as the 833 Auction. It may also include individuals who purchase auctioned numbers in the secondary market.
