NUCLEAR REGULATORY COMMISSION

[Docket Nos. 52-025; NRC-2008-0252]

Southern Nuclear Operating Company, Inc.; Vogtle Electric Generating Plant, Unit 3; Background Check Process for Participation in ITAAC Proceeding

AGENCY: Nuclear Regulatory Commission.

ACTION: Opportunity to initiate background check for access to safeguards information; public meeting.

SUMMARY: In approximately 4 to 7 months, the U.S. Nuclear Regulatory Commission (NRC) will publish in the **Federal Register** a notice of intended operation, which will allow the public to submit requests for hearing regarding the licensee’s conformance with the acceptance criteria in the combined license (COL) for Vogtle Electric Generating Plant (VEGP) Unit 3. These acceptance criteria are part of the inspections, tests, analyses, and acceptance criteria (ITAAC) included in the COL. If a member of the public believes access to Safeguards Information (SGI) is necessary to file a hearing request, then members of the public must satisfy several standards, including a determination by the NRC that they are “trustworthy and reliable.” Because the background checks used to support trustworthiness and reliability determinations take some time to

complete, the NRC is providing this “pre-clearance” process, by which members of the public may initiate background checks to be completed by an investigative agency well before the hearing process begins. Also, the NRC will hold a public information meeting on the ITAAC hearing process.

DATES: This pre-clearance process is available until publication in the **Federal Register** of the notice of intended operation for VEGP Unit 3. When the notice of intended operation is published, it will govern access to SGI for the proceeding on VEGP Unit 3.

A public information meeting on the ITAAC hearing process will be held on October 30, 2019, at 6:00 p.m. at Augusta Technical College, Waynesboro, Georgia. The NRC will provide background information on the ITAAC hearing process and answer questions on it.

ADDRESSES: Please refer to Docket ID NRC-2008-0252 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2008-0252. Address questions about NRC docket IDs in *Regulations.gov* to Anne Frost; telephone: 301-287-9232; email: Anne.Frost@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. Refer to Section II of this document for instructions on how to submit the request for a background check.

FOR FURTHER INFORMATION CONTACT: Chandu Patel, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: (301) 415-3025, email: Chandu.Patel@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC hereby gives notice that members of the public who believe they may need access to SGI to file a hearing

request in the upcoming ITAAC proceeding for VEGP Unit 3 may initiate background checks for access to SGI before the proceeding begins. This notice describes how the required background check forms may be obtained and how the required forms and fee must be submitted. Requests to initiate background checks under this notice may be made until publication in the **Federal Register** of the notice of intended operation for VEGP Unit 3. When the notice of intended operation is published, it will govern access to SGI for the proceeding on VEGP Unit 3.

A. Requirements for Access to SGI

Safeguards Information is a special category of sensitive unclassified information defined in section 73.2 of title 10 of the *Code of Federal Regulations* (10 CFR) and protected from unauthorized disclosure under Section 147 of the Atomic Energy Act of 1954, as amended (AEA). Although SGI is unclassified information, it is handled and protected more like Classified National Security Information than like other sensitive unclassified information (e.g., privacy and proprietary information). Requirements for access to SGI and requirements for SGI handling, storage, and processing are in 10 CFR part 73.

To obtain access to SGI in an adjudicatory context, persons must (1) demonstrate a “need to know” for the SGI, (2) be deemed “trustworthy and reliable,” and (3) demonstrate a likelihood of establishing standing. As relevant to adjudications, “need to know” is defined in 10 CFR 73.2 as a determination by the originator of the SGI that the SGI is necessary to enable the proposed recipient to proffer and/or adjudicate a specific contention in that proceeding, and the proposed recipient of the specific SGI possesses demonstrable knowledge, skill, training, or education to effectively utilize the specific SGI in the proceeding. “Trustworthiness and reliability” is defined in 10 CFR 73.2 as the characteristics of an individual considered dependable in judgment, character, and performance, such that disclosure of SGI to that individual does not constitute an unreasonable risk to the public health and safety or common defense and security. A determination of trustworthiness and reliability for this purpose is based upon a background check. The standing requirements are in 10 CFR 2.309.
