

Small Numbers

As noted above, only small numbers of incidental take may be authorized under Sections 101(a)(5)(A) and (D) of the MMPA for specified activities other than military readiness activities. The MMPA does not define small numbers and so, in practice, where estimated numbers are available, NMFS compares the number of individuals taken to the most appropriate estimation of abundance of the relevant species or stock in our determination of whether an authorization is limited to small numbers of marine mammals. Additionally, other qualitative factors may be considered in the analysis, such as the temporal or spatial scale of the activities.

For all stocks, the amount of authorized take is small (less than 3 percent; Table 12). Although the number of exposures of harbor seals is high, as described above, takes would likely occur to the small (approximately 300 to 400 animals), resident population of harbor seals within Coos Bay.

Based on the analysis contained herein of the proposed activity (including the proposed mitigation and monitoring measures) and the anticipated take of marine mammals, NMFS preliminarily finds that small numbers of marine mammals will be taken relative to the population size of the affected species or stocks.

Unmitigable Adverse Impact Analysis and Determination

There are no relevant subsistence uses of the affected marine mammal stocks or species implicated by this action. Therefore, NMFS has preliminarily determined that the total taking of affected species or stocks would not have an unmitigable adverse impact on the availability of such species or stocks for taking for subsistence purposes.

Based on the description of the specified activity, the measures described to minimize adverse effects on the availability of marine mammals for subsistence purposes, and the proposed mitigation and monitoring measures, NMFS has preliminarily determined that there will not be an unmitigable adverse impact on subsistence uses from JCEP's proposed activities.

Endangered Species Act (ESA)

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA: 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or

threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally, in this case with the West Coast Region Protected Resources Division, whenever we propose to authorize take for endangered or threatened species.

No incidental take of ESA-listed marine mammal species is proposed for authorization or expected to result from this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required for this action.

Proposed Authorization

As a result of these preliminary determinations, NMFS proposes to issue an IHA to JCEP for constructing the proposed Jordan Cove LNG Terminal and associated ancillary activities in Coos Bay, Oregon from October 1, 2020 through September 30, 2021, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated. A draft of the proposed IHA can be found at <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act>.

Request for Public Comments

We request comment on our analyses, the proposed authorization, and any other aspect of this Notice of Proposed IHA for construction of the proposed Jordan Cove LNG Terminal and ancillary activities. We also request at this time comment on the potential renewal of this proposed IHA as described in the paragraph below. Please include with your comments any supporting data or literature citations to help inform decisions on the request for this IHA or a subsequent renewal.

On a case-by-case basis, NMFS may issue a one-year IHA renewal with an additional 15 days for public comments when (1) another year of identical or nearly identical activities as described in the Specified Activities section of this notice is planned or (2) the activities as described in the Specified Activities section of this notice would not be completed by the time the IHA expires and a second IHA would allow for completion of the activities beyond that described in the *Dates and Duration* section of this notice, provided all of the following conditions are met:

- A request for renewal is received no later than 60 days prior to expiration of the current IHA.
- The request for renewal must include the following:
 - (1) An explanation that the activities to be conducted under the requested

renewal are identical to the activities analyzed under the initial IHA, are a subset of the activities, or include changes so minor (e.g., reduction in pile size) that the changes do not affect the previous analyses, mitigation and monitoring requirements, or take estimates (with the exception of reducing the type or amount of take because only a subset of the initially analyzed activities remain to be completed under the renewal).

(2) A preliminary monitoring report showing the results of the required monitoring to date and an explanation showing that the monitoring results do not indicate impacts of a scale or nature not previously analyzed or authorized.

Upon review of the request for renewal, the status of the affected species or stocks, and any other pertinent information, NMFS determines that there are no more than minor changes in the activities, the mitigation and monitoring measures will remain the same and appropriate, and the findings in the initial IHA remain valid.

Dated: November 7, 2019.

Donna S. Wieting,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648–XT020

Atlantic Highly Migratory Species; Atlantic Highly Migratory Species Southeast Data, Assessment, and Review Workshops Advisory Panel

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; nominations for shark stock assessment Advisory Panel.

SUMMARY: NMFS solicits nominations for the “SEDAR Pool,” also known as the Atlantic Highly Migratory Species (HMS) Southeast Data, Assessment, and Review (SEDAR) Workshops Advisory Panel. The SEDAR Pool is comprised of a group of individuals who may be selected to consider data and advise NMFS regarding the scientific information, including but not limited to data and models, used in stock assessments for oceanic sharks in the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea. Nominations are being sought for a 5-year appointment (2020–

2025). Individuals with definable interests in the recreational and commercial fishing and related industries, environmental community, academia, and non-governmental organizations will be considered for membership on the SEDAR Pool.

DATES: Nominations must be received on or before December 18, 2019.

ADDRESSES: You may submit nominations and request the SEDAR Pool Statement of Organization, Practices, and Procedures by any of the following methods:

- *Email:* SEDAR.pool@noaa.gov.
- *Mail:* Karyl Brewster-Geisz, Highly Migratory Species Management Division, NMFS, 1315 East-West Highway, Silver Spring, MD 20910. Include on the envelope the following identifier: "SEDAR Pool Nomination."
- *Fax:* 301-713-1917.

Additional information on SEDAR and the SEDAR guidelines can be found at <http://sedarweb.org/>. The terms of reference for the SEDAR Pool, along with a list of current members, can be found at <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/southeast-data-assessment-and-review-and-atlantic-highly>.

FOR FURTHER INFORMATION CONTACT: Karyl Brewster-Geisz, (301) 425-8503.

SUPPLEMENTARY INFORMATION:

Background

Section 302(g)(2) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1801 *et seq.*, states that each Council shall establish such advisory panels as are necessary or appropriate to assist it in carrying out its functions under the Act. For the purposes of this section, NMFS applies the above Council provision to Atlantic HMS management (See section 304(g)(1) of the Magnuson-Stevens Act, which provides that the Secretary will prepare fishery management plans for HMS and consult with Advisory Panels under section 302(g) for such FMPs). As such, NMFS has established the SEDAR Pool under this section. The SEDAR Pool currently consists of 30 individuals, each of whom may be selected to review data and advise NMFS regarding the scientific information, including but not limited to data and models, used in stock assessments for oceanic sharks in the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea. While the SEDAR Pool was created specifically for Atlantic oceanic sharks, it may be expanded to include other HMS, as needed.

The primary purpose of the individuals in the SEDAR Pool is to

review, at SEDAR workshops, the scientific information (including but not limited to data and models) used in stock assessments that are used to advise NMFS, as a delegate to the Secretary of Commerce (Secretary), about the conservation and management of Atlantic HMS, specifically but not limited to, Atlantic sharks. Individuals in the SEDAR Pool, if selected, may participate in the various data, assessment, and review workshops during the SEDAR process of any HMS stock assessment. In order to ensure that the peer review is unbiased, individuals who participated in a data and/or assessment workshop for a particular stock assessment will not be allowed to serve as reviewers for the same stock assessment. However, these individuals may be asked to attend the review workshop to answer specific questions from the reviewers concerning the data and/or assessment workshops. Members of the SEDAR Pool may serve as members of other Advisory Panels concurrent with, or following, their service on the SEDAR Pool.

Procedures and Guidelines

A. Participants

The SEDAR Pool is comprised of individuals representing the commercial and recreational fishing communities for Atlantic sharks, the environmental community active in the conservation and management of Atlantic sharks, and the academic community that have relevant expertise either with sharks and/or stock assessment methodologies for marine fish species. In addition, individuals who may not necessarily work directly with sharks, but who are involved in fisheries with similar life history, biology, and fishery issues may be part of the SEDAR Pool. Members of the SEDAR Pool must have demonstrated experience in the fisheries, related industries, research, teaching, writing, conservation, or management of marine organisms. The distribution of representation among the interested parties is not defined or limited.

Additional members of the SEDAR Pool may also include representatives from each of the five Atlantic Regional Fishery Management Councils, each of the 18 Atlantic states, both the U.S. Virgin Islands and Puerto Rico, and each of the interstate commissions: The Atlantic States Marine Fisheries Commission and the Gulf States Marine Fisheries Commission.

If NMFS requires additional members to ensure a diverse pool of individuals for data or assessment workshops, NMFS may request individuals to

become members of the SEDAR Pool outside of the annual nomination period.

SEDAR Pool members serve at the discretion of the Secretary. Not all members will attend each SEDAR workshop. Rather, NMFS will invite certain members to participate at specific stock assessment workshops dependent on their ability to participate, discuss, and recommend scientific decisions regarding the species being assessed.

NMFS is not obligated to fulfill any requests (e.g., requests for an assessment of a certain species) that may be made by the SEDAR Pool or its individual members. Members of the SEDAR Pool who are invited to attend stock assessment workshops will not be compensated for their services but may be reimbursed for their travel-related expenses to attend such workshops.

B. Nomination Procedures for Appointments to the SEDAR Pool

Member tenure will be for 5 years. Nominations are sought for terms beginning early in 2020 and expiring in 2025. Nomination packages should include:

1. The name, address, phone number, and email of the applicant or nominee;
2. A description of the applicant's or nominee's interest in Atlantic shark stock assessments or the Atlantic shark fishery;
3. A statement of the applicant's or nominee's background and/or qualifications; and
4. A written commitment that the applicant or nominee shall participate actively and in good faith in the tasks of the SEDAR Pool, as requested.

C. Meeting Schedule

Individual members of the SEDAR Pool meet to participate in stock assessments at the discretion of the Office of Sustainable Fisheries, NMFS. Stock assessment timing, frequency, and relevant species will vary depending on the needs determined by NMFS and SEDAR staff. In 2020, NMFS intends to finish the currently ongoing Atlantic blacktip shark assessment. Once that assessment is complete, NMFS intends to begin a research track assessment for the hammerhead shark species in the hammerhead shark management group. During an assessment year, meetings and meeting logistics will be determined according to the SEDAR Guidelines. All meetings are open for observation by the public.

Dated: November 12, 2019.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Policy Board; Notice of Federal Advisory Committee Meeting

AGENCY: Under Secretary of Defense for Policy, Department of Defense (DoD).

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: The DoD is publishing this notice to announce that the following Federal Advisory Committee meeting of the Defense Policy Board (DPB) will take place.

DATES: Closed to the public Tuesday, November 19, 2019 from 8:00 a.m. to 5:00 p.m.

ADDRESSES: The closed meeting will be held at The Pentagon, 2000 Defense Pentagon, Washington, DC 20301-2000.

FOR FURTHER INFORMATION CONTACT: Ms. Monica Bacheler, (703) 571-9234 (Voice), 703-697-8606 (Facsimile), monica.t.bacheler.civ@mail.mil (Email). Mailing address is 2000 Defense Pentagon, Washington, DC 20301-2000.

SUPPLEMENTARY INFORMATION: Due to circumstances beyond the control of the Department of Defense (DoD) and the Designated Federal Officer, the Defense Policy Board was unable to provide public notification required by 41 CFR 102-3.150(a) concerning the meeting on November 19, 2019 of the Defense Policy Board. Accordingly, the Advisory Committee Management Officer for the Department of Defense, pursuant to 41 CFR 102-3.150(b), waives the 15-calendar day notification requirement.

This meeting is being held under the provisions of the Federal Advisory Committee Act (FACA) (5 U.S.C., App.), the Government in the Sunshine Act (5 U.S.C. 552b), and 41 CFR 102-3.140 and 102-3.150.

Purpose of the Meeting: To obtain, review, and evaluate classified information related to the DPB's mission to advise on (a) issues central to strategic DoD planning; (b) policy implications of U.S. force structure and force modernization and on DoD's ability to execute U.S. defense strategy; (c) U.S. regional defense policies; and (d) other research and analysis of topics raised by the Secretary of Defense, the Deputy Secretary of Defense, or the Under Secretary of Defense for Policy.

Agenda: On November 19, 2019, the DPB will have classified discussions on national security issues regarding National Defense Strategy alignment and priorities for the United States Africa Command (USAFRICOM) Area of Responsibility (AOR). Topics and speakers include (1) an intel community baseline from the DIA and CIA of actions in this space; (2) policy perspectives from Dr. James Anderson, Ms. Amanda Dory, Ms. Simone Ledeen, Ms. Michelle Lenihan, and Mr. Chad Sbragia of the Office of the Secretary of Defense for Policy; (3) perspectives from leadership at USAFRICOM; (4) perspectives from the Defense Security Cooperation Agency and the Joint Staff on security cooperation and exercise activities happening on the continent; and (5) State Department and USAID presentations on their operations and presence in Africa.

Meeting Accessibility: In accordance with section 10(d) of the FACA, and 41 CFR 102-3.155, the DoD has determined that this meeting shall be closed to the public. The Under Secretary of Defense (Policy), in consultation with the DoD FACA Attorney, has determined, in writing, that this meeting be closed to the public because the discussions fall under the purview of Section 552b(c)(1) of the Government in the Sunshine Act, and are so inextricably intertwined with unclassified material that they cannot reasonably be segregated into separate discussions without disclosing classified material.

Written Statements: In accordance with Section 10(a)(3) of the FACA and 41 CFR 102-3.105(j) and 102-3.140(c), the public or interested organizations may submit written statements to the membership of the DPB at any time regarding its mission or in response to the stated agenda of a planned meeting. Written statements should be submitted to the DPB's Designated Federal Officer (DFO), which is listed in this notice or can be obtained from the GSA's FACA Database—<http://www.facadatabase.gov/>. Written statements that do not pertain to a scheduled meeting of the DPB may be submitted at any time. However, if individual comments pertain to a specific topic being discussed at a planned meeting, then these statements must be submitted no later than two business days prior to the meeting in question. The DFO will review all submitted written statements and provide copies to all members.

Dated: November 13, 2019.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF ENERGY

Bonneville Power Administration

Crystal Springs Hatchery Program Termination Environmental Impact Statement (EIS)

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of intent to terminate preparation of an Environmental Impact Statement (EIS).

SUMMARY: This notice advises the public that BPA is terminating the preparation of the Crystal Springs Hatchery Program EIS (DOE/EIS-0500) that was announced in the Notice of Intent in the **Federal Register** on May 27, 2014. This EIS was considering BPA's decision whether to fund the Shoshone-Bannock Tribes of the Fort Hall Reservation of Idaho's (Shoshone-Bannock Tribes) proposal to construct and operate a hatchery for spring/summer Chinook salmon for release in the Salmon River subbasin and for Yellowstone cutthroat trout for release in the Upper Snake River subbasin on the Fort Hall Reservation. The Shoshone-Bannock Tribes are developing an alternate implementation strategy to address site conditions and BPA would consider these proposals in the future.

FOR FURTHER INFORMATION CONTACT: Ted Gresh, Environmental Protection Specialist, Bonneville Power Administration—ECF-4, P.O. Box 3621, Portland, Oregon 97208-3621; toll-free telephone 1-800-282-3713; direct telephone 503-230-5756; or email esgresh@bpa.gov or Jonathan McCloud, Project Manager, Bonneville Power Administration—EWM-4, P.O. Box 3621, Portland, Oregon, 97208-3621; toll-free telephone number 1-800-622-4519; email jmmcccloud@bpa.gov. Additional information can be found at the project website: www.bpa.gov/goto/CrystalSprings.

SUPPLEMENTARY INFORMATION: A Notice of Intent was published in the **Federal Register** on May 27, 2014, (79 FR 30165) to begin preparing an EIS for the Crystal Springs Hatchery Program. BPA solicited public comments pursuant to Section 102 of the National Environmental Policy Act (NEPA) of 1969. A draft EIS was issued May 3,
