Flotation materials shall be resistant to puncture, penetration, damage by animals, and fire. Any flotation within 40 feet of a line carrying fuel shall be 100 percent impervious to water and fuel. Use of plastic, metal, or other previously used drums or containers for encasement or flotation purposes is prohibited, except as provided in paragraph (c) of this section for certain metal drums already in use. #### **Proposed Priority and Requirements—Technical Assistance on State Data Collection—National Technical Assistance Center To Improve State Capacity To Collect, Report, Analyze, and Use Accurate IDEA Part B and Part C Fiscal Data**

**AGENCY:** Office of Special Education and Rehabilitative Services, Department of Education.

**ACTION:** Proposed priority and requirements.

**SUMMARY:** The mission of the Office of Special Education and Rehabilitative Services (OSERS) is to improve early childhood, educational, and employment outcomes and raise expectations for all people with disabilities, their families, their communities, and the Nation. As such, the Department of Education (Department) proposes a funding priority and requirements under the Technical Assistance on State Data Collection program. The Department may use the proposed priority for competitions in fiscal year (FY) 2020 and later years. The National Technical Assistance Center to Improve State Capacity to

Collect, Report, Analyze, and Use Accurate IDEA Part B and Part C Fiscal Data (Fiscal Data Center) would support States in collecting, reporting, and determining how to best analyze and use their IDEA Part B and C fiscal data to establish and meet high expectations for each child with a disability and would customize its TA to meet each State's specific needs.

**DATES:** We must receive your comments on or before February 24, 2020.
