Title: 49 U.S.C. Section 5307 Urbanized Area Formula Program.

OMB Control Number: 2132–0502.

Type of Request: Renewal of a previously approved information collection.

Abstract: The Urbanized Area (UZA) Formula Funding program (49 U.S.C.

¹ FRA makes a technical correction to the title of Form FRA F 6180.83 in this notice.

² After an internal agency review, FRA updated the respondent universe estimate.

5307) makes federal resources available to urbanized areas and to governors for transit capital and operating assistance in urbanized areas and for transportation-related planning. An urbanized area is an incorporated area with a population of 50,000 or more that is designated as such by the U.S. Department of Commerce, Bureau of the Census. Funding is made available to designated recipients that are public bodies with the legal authority to receive and dispense federal funds. Governors, responsible local officials and publicly owned operators of transit services shall designate a recipient to apply for, receive, and dispense funds for urbanized areas. The governor or governor's designee acts as the designated recipient for urbanized areas between 50,000 and 200,000. For urbanized areas with 200,000 in population and over, funds are apportioned and flow directly to a designated recipient selected locally to apply for and receive Federal funds. For urbanized areas under 200,000 in population, the funds are apportioned to the governor of each state for distribution. Eligible activities include: Planning, engineering, design and evaluation of transit projects and other technical transportation-related studies; capital investments in bus and bus-related activities such as replacement, overhaul and rebuilding of buses, crime prevention and security equipment and construction of maintenance and passenger facilities; and capital investments in new and existing fixed guideway systems including rolling stock, overhaul and rebuilding of vehicles, track, signals, communications, and computer hardware and software. In addition, associated transit improvements and certain expenses associated with mobility management programs are eligible under the program. All preventive maintenance and some Americans with Disabilities Act complementary paratransit service costs are considered capital costs. This information collection includes a decrease in burden due to the reduced reporting requirement for projects under two million in large UZAs. FTA has eliminated quarterly reporting requirements for any grant under the two-million-dollar threshold.

Respondents: State or local governmental entities that operates a public transportation service.

Estimated Annual Number of Respondents: 1,560.

Estimated Total Annual Burden: 114,008.

Frequency: Annually.
