

David Tedrick at (916) 498-5024 or email [david.tedrick@dot.gov](mailto:david.tedrick@dot.gov).

**SUPPLEMENTARY INFORMATION:** Effective July 1, 2007, the FHWA assigned, and the Caltrans assumed, environmental responsibilities for this project pursuant to 23 U.S.C. 327. Notice is hereby given that Caltrans and USACE have taken final agency actions subject to 23 U.S.C. 139(J)(1) by issuing licenses, permits, and approvals for the following highway project in the State of California: Rehabilitation of the existing asphalt concrete (AC) pavement on Interstate 10 from Post Mile (PM) R104.9 to PM R134.0. in the County of Riverside. Rehabilitation Activities include removal and replacement of existing inside and outside shoulders, guardrails, rumble strips, drainage inlets, and dikes, and installation of oversized drains. The project will also involve upgrades to ramp facilities for ADA compliance, installation of two temporary detour lanes in the existing median, extension of existing rock slope protection at bridge locations, and hydroseeding the median for erosion control and vegetation restoration. The primary purpose of this project is to restore and extend the life of existing pavement for a minimum of forty years, enhance trip reliability, and consequently minimize expenditures associated with future maintenance. The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Final Environmental Assessment (FEA)/ Finding of No Significant Impact (FONSI) for the project, approved on November 8, 2019, and in other documents in Caltrans' project records. The FEA, FONSI and other project records are available by contacting Caltrans at the addresses provided above. The USACE decision are available by contacting USACE at the address provided above.

This notice applies to all Federal agency decisions as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to:

1. National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4331(b)(2)
2. Federal Highway Act of 1970, U.S.C. 772
3. Federal Clean Air Act, as amended
4. Clean Water Act of 1977 and 1987
5. Federal Water Pollution Control Act of 1972
6. Safe Drinking Water Act of 1944, as amended
7. Endangered Species Act of 1973
8. Executive Order 11990, Protection of Wetlands

9. Executive Order 13112, Invasive Species
10. Fish and Wildlife Coordination Act of 1934, as amended
11. Migratory Bird Treaty Act
12. Title VI of the Civil Rights Act of 1964, as amended
13. Executive Order 12898, Federal Actions to Address Environmental Justice in Minority and Low-Income Populations
14. National Historic Preservation Act of 1966, as amended

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

**Authority:** 23 U.S.C. 139(J)(1).

Issued on: December 16, 2019.

**Tashia J. Clemons,**

*Director, Planning and Environment, Federal Highway Administration, California Division.*

## DEPARTMENT OF TRANSPORTATION

### Federal Highway Administration

#### Environmental Impact Statement in Erie County, NY

**AGENCY:** Federal Highway Administration (FHWA), U.S. DOT.

**ACTION:** Notice of intent.

**SUMMARY:** The FHWA is issuing this notice to advise the public that an Environmental Impact Statement (EIS) will be prepared for a proposed project known as the New York State (NYS) Route 5 (Buffalo Skyway) Project, in Erie County, New York.

#### FOR FURTHER INFORMATION CONTACT:

Frank Cirillo, Regional Director, New York State Department of Transportation, 100 Seneca Street, Buffalo, New York 14203, Telephone: (716) 847-3238; or Richard Marquis, Division Administrator, Federal Highway Administration, New York Division, Leo W. O'Brien Federal Building, 7th Floor, 11A Clinton Avenue, Albany, New York 12207, Telephone (518) 431-4127.

**SUPPLEMENTARY INFORMATION:** The New York State Department of Transportation (NYSDOT), in cooperation with FHWA, will prepare an EIS in accordance with the National Environmental Policy Act (NEPA) on a proposal to remove the Buffalo Skyway bridge and its approaches, including portions of NYS Route 5 along the Outer Harbor, and realign the transportation

network within the Buffalo Outer Harbor and South Buffalo areas.

NYS Route 5 serves as the primary vehicular route connecting Buffalo's downtown to its southern suburbs. In recent years, the Buffalo Inner and Outer Harbors have undergone substantial redevelopment with recreational/mixed-use improvements. It has become apparent that the portions of NYS Route 5 along the Buffalo Outer Harbor, including the Skyway Bridge, present both a physical and visual barrier to continued development within this area. Infrastructure removal is needed to accommodate existing and planned recreational, mixed-use, and waterfront development and support waterfront economic development initiatives. The project is also needed to improve the transportation network to safely and efficiently accommodate the traffic currently carried by the Skyway Bridge and to address the safety, operational, and capacity deficiencies of the highway connections that serve economic development areas and local communities within South Buffalo.

The purpose of the project is to realign the existing transportation network to support existing and planned recreational, mixed-use, and waterfront development in the Buffalo Outer Harbor area. The project will also address the safety, operational, and capacity deficiencies of the highway connections that serve economic development areas and local communities within South Buffalo.

A reasonable range of alternatives is currently being considered and will be evaluated during the NEPA scoping process in consideration of agency and public comments received. Letters describing the proposed action and soliciting comments have been sent to Cooperating and Participating Agencies. Public and agency outreach will include formal Public Scoping Meetings, a Public Hearing, and consultation with Cooperating and Participating Agencies. Public notice will be given of the dates, times, and locations of the Scoping Meetings and Public Hearing.

To assist in determining the scope of issues to be addressed and identifying the potential for significant issues related to the proposed action, the general public will have the opportunity to submit written comments at the Scoping Meetings and during a scoping comment period. A Draft EIS will be available for public and agency review and comment prior to the Public Hearing.

Comments or questions concerning this proposed action should be directed to the NYSDOT and FHWA at the addresses provided above.

Issued on: December 11, 2019.

**Richard J. Marquis,**

New York Division Administrator, Albany,  
New York.

## DEPARTMENT OF TRANSPORTATION

### Federal Railroad Administration

[Docket No. FRA-2019-0004-N-22]

#### Proposed Agency Information Collection Activities; Comment Request

**AGENCY:** Federal Railroad  
Administration (FRA), U.S. Department  
of Transportation (DOT).

**ACTION:** Notice of information collection;  
request for comment.

**SUMMARY:** Under the Paperwork  
Reduction Act of 1995 (PRA) and its  
implementing regulations, this notice  
announces that FRA is forwarding the  
Information Collection Requests (ICRs)  
abstracted below to the Office of  
Management and Budget (OMB) for  
review and comment. The ICRs describe  
the information collections and their  
expected burden. On October 7, 2019,  
FRA published a notice providing a 60-  
day period for public comment on the  
ICRs.

**DATES:** Interested persons are invited to  
submit comments on or before January  
21, 2020.

**ADDRESSES:** Submit written comments  
on the ICRs to the Office of Information  
and Regulatory Affairs, Office of  
Management and Budget, 725 17th  
Street NW, Washington, DC 20503,  
Attention: FRA Desk Officer. Comments  
may also be sent via email to OMB at  
the following address: [oir-submissions@omb.eop.gov](mailto:oir-submissions@omb.eop.gov).

**FOR FURTHER INFORMATION CONTACT:** Ms.  
Hodan Wells, Information Collection  
Clearance Officer, Office of Railroad  
Safety, Federal Railroad Administration,  
1200 New Jersey Avenue SE,  
Washington, DC 20590, (telephone:  
(202) 493-0440) or Ms. Kim Toone,  
Information Collection Clearance  
Officer, Office of Information  
Technology, Federal Railroad  
Administration, 1200 New Jersey  
Avenue SE, Washington, DC 20590,  
(telephone: (202) 493-6132).

**SUPPLEMENTARY INFORMATION:** The PRA,  
44 U.S.C. 3501-3520, and its  
implementing regulations, 5 CFR part  
1320, require Federal agencies to issue  
two notices seeking public comment on  
information collection activities before  
OMB may approve paperwork packages.

See 44 U.S.C. 3506, 3507; 5 CFR 1320.8  
through 1320.12. On October 7, 2019,  
FRA published a 60-day notice in the  
**Federal Register** soliciting public  
comment on the ICRs for which it is  
now seeking OMB approval. See 84 FR  
53556. FRA has received no comments  
in response to this notice.

Before OMB decides whether to  
approve these proposed collections of  
information, it must provide 30-days'  
notice for public comment. Federal law  
requires OMB to approve or disapprove  
paperwork packages between 30 and 60  
days after the 30-day notice is  
published. 44 U.S.C. 3507(b)-(c); 5 CFR  
1320.12(d); see also 60 FR 44978, 44983,  
Aug. 29, 1995. OMB believes the 30-day  
notice informs the regulated community  
to file relevant comments and affords  
the agency adequate time to digest  
public comments before it renders a  
decision. 60 FR 44983, Aug. 29, 1995.  
Therefore, respondents should submit  
their respective comments to OMB  
within 30 days of publication to best  
ensure having their full effect.

Comments are invited on the  
following ICRs regarding: (1) Whether  
the information collection activities are  
necessary for FRA to properly execute  
its functions, including whether the  
information will have practical utility;  
(2) the accuracy of FRA's estimates of  
the burden of the information collection  
activities, including the validity of the  
methodology and assumptions used to  
determine the estimates; (3) ways for  
FRA to enhance the quality, utility, and  
clarity of the information being  
collected; and (4) ways to minimize the  
burden of information collection  
activities on the public, including the  
use of automated collection techniques  
or other forms of information  
technology.

The summaries below describe the  
ICRs that FRA will submit for OMB  
clearance as the PRA requires:

**Title:** Remotely Controlled Switch  
Operations.

**OMB Control Number:** 2130-0516.

**Abstract:** Sections 49 CFR 218.30 and  
218.77 require remotely controlled  
switches be properly lined to protect  
workers who are vulnerable to being  
struck by moving cars as they inspect or  
service rolling equipment on track or  
occupy camp cars. Creating required  
notifications promotes safety by  
minimizing the mental lapses of  
workers who are simultaneously  
handling several tasks. These sections  
require the operator of remotely  
controlled switches to maintain a record  
of each blue signal protection request  
for 15 days. Operators of remotely  
controlled switches use the information

as a record documenting blue signal  
protection of workers or camp cars. This  
record also serves as a valuable resource  
for railroad supervisors and FRA and  
State inspectors monitoring regulatory  
compliance.

**Type of Request:** Extension with  
change (revised estimates) of a currently  
approved collection.

**Affected Public:** Businesses.

**Form(s):** N/A.

**Respondent Universe:** 53 railroads.

**Frequency of Submission:** On  
occasion.

**Total Estimated Annual Responses:**  
1,934,650.

**Total Estimated Annual Burden:**  
24,183 hours.

**Total Estimated Annual Burden Hour  
Dollar Cost Equivalent:** \$1,378,431.

**Title:** Bad Order, Home Shop Card,  
and Stenciling Reporting Mark.

**OMB Control Number:** 2130-0519.

**Abstract:** Under 49 CFR part 215,  
railroads are required to inspect freight  
cars placed in service and take remedial  
action when defects are identified. A  
railroad freight car with a part 215  
defect may be moved to another location  
for repair only after the railroad has  
complied with the process under 49  
CFR 215.9. Section 215.9 requires  
railroads to affix a "bad order" tag  
describing each defect to each side of  
the freight car. It is imperative that a  
defective freight car be tagged "bad  
order" so it can be readily identified  
and moved to another location for repair  
purposes only, and so that the  
maximum speed and other restrictions  
necessary for safely conducting the  
movement are known. At the repair  
location, the "bad order" tag serves as  
a notification of the defective condition  
of the freight car. Railroads must retain  
each tag for 90 days to verify that proper  
repairs were made at the designated  
location. When inspecting a freight car,  
FRA and State inspectors review all  
pertinent records to determine railroads'  
compliance with the movement  
restrictions of 49 CFR 215.9.

Additionally, section 215.301<sup>1</sup>  
requires railroads and private car  
owners to stencil or otherwise display  
identification marks on freight cars.  
FRA uses the identification marks to  
determine the railroads affected, the  
number and type of cars involved, the  
commodities being carried, and the  
territorial and speed limits within  
which the cars will be operated. FRA  
reviews this information to determine if  
the freight car is safe to operate and if  
the operation qualifies for dedicated

<sup>1</sup> Burdens associated with section 215.301 were  
formerly covered under OMB Control Number  
2130-0520.
