

prospective employees have incurred a drug or alcohol violation that would prohibit them from performing safety-sensitive functions, including operating a CMV.

The Clearinghouse will provide FMCSA and employers the necessary tools to identify drivers who are prohibited from operating a CMV and ensure that such drivers receive the required evaluation and treatment before resuming safety-sensitive functions. Specifically, information maintained in the Clearinghouse will ensure that drivers who commit a drug or alcohol violation while working for one employer and attempt to find work with another employer, can no longer conceal their drug and alcohol violations merely by moving on to the next job or the next state. Drug and alcohol violation records maintained in the Clearinghouse will follow the driver regardless of how many times he or she changes employers, seeks employment or applies for a CDL in a different State.

The information in the Clearinghouse will be used by FMCSA and its State partners for enforcement purposes:

- Ensure employers are meeting their pre-employment investigation and reporting requirements.
- Place drivers out of service if drivers are found to be operating a CMV without completing the RTD process.
- Ensure medical review officers (MROs) and substance abuse professionals (SAPs) meet their reporting requirements.

Only authorized users, including employers and their service agents, and highway safety personnel, and State Driver Licensing Agencies (SDLAs), will be able to register and access the Clearinghouse for designated purposes. State enforcement personnel will receive the driver's eligibility status to operate a CMV, based on Clearinghouse information, when they check Query Central or NLEts for driver information. FMCSA will share a driver's drug and alcohol violation information with the National Transportation Safety Board when it is investigating a crash involving that driver.

Drivers will be able to access their own information, but not information of other drivers. The Clearinghouse will meet all relevant federal security standards and FMCSA will continuously monitor compliance with applicable security regulations.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for the

FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that Knight-Swift Transportation Holdings, Inc. II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain parts of the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reason for the grant or denial and, if granted, the specific person or class of persons receiving the exemption, and the regulatory provision or provisions from

which exemption is granted. The notice must also specify the effective period of the exemption (up to 5 years), and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

Issued on: December 17, 2019.
