Title of Collection: Study of District and School Uses of Federal Education Funds.

OMB Control Number: 1850–NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 306.

Total Estimated Number of Annual Burden Hours: 306.

Abstract: The Study of District and School Uses of Federal Education Funds will examine targeting and resource allocation for five major federal education programs: Part A of Titles I, II, III, and IV of the Elementary and Secondary Education Act (ESEA)—including school improvement grants provided under Section 1003 of Title I, Part A—as well as Title I, Part B of the Individuals with Disabilities Education Act (IDEA). The study will collect detailed fiscal data from a nationally representative sample of 400 school districts, including budgets, plans, expenditure data, and personnel and payroll data. In addition, the study will collect data on allocations to districts and schools to examine how the distribution of funds varies in relation to program goals and student needs; survey district and school officials to explore such issues as the types of services and resources that are provided through the federal funds, coordination across programs, and use of flexibility; conduct interviews in nine site visits to districts to obtain more in-depth data; and analyze fiscal data.

This package is the first of two OMB clearance requests for this study. This package requests approval for selection and recruitment of nationally representative samples of school districts and schools and collection of certain preliminary information from states (*i.e.*, lists of subgrantees and suballocation amounts for each program, contact information for district program coordinators for each of the covered ESEA programs, and the state chart of accounts). A future submission will request OMB clearance for the data collection instruments for this study. We anticipate beginning collection of subgrantee lists and other preliminary information in May 2020 and launching the district- and school-level data collection in September 2020.

Dated: December 18, 2019.
