#### SUPPLEMENTARY INFORMATION:

**Background:** The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the Administrator on the scientific and technical basis for agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the SAB will hold a public meeting to discuss its reviews of the scientific and technical basis of four proposed rules. Under the

SAB's authorizing statute, the SAB "may make available to the Administrator, within the time specified by the Administrator, its advice and comments on the adequacy of the scientific and technical basis" of proposed rules. At a public meeting held on June 5–6, 2019, the SAB discussed whether to review the scientific and technical basis of major EPA actions in the Spring 2018 regulatory agenda. The SAB decided to provide advice and comments on the scientific and technical basis of the following proposed rules: (1) National Emission Standards for Hazardous Air Pollutants: Coal- and Oil-Fired Electric Utility Steam Generating Units—Reconsideration of Supplemental Finding and Residual Risk and Technology Review; (2) The Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021–2026 Passenger Cars and Light Trucks; (3) Strengthening Transparency in Regulatory Science; and (4) Revised Definition of "Waters of the United States." The purpose of the meeting described in this notice is to discuss draft reports developed by SAB workgroups.

**Availability of Meeting Materials:** Prior to the meeting, an agenda and other meeting materials will be placed on the SAB website at <http://epa.gov/sab>.

**Procedures for Providing Public Input:** Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office.
